CWD has been reported in captive cervids and free-ranging cervids in the following states and provinces:

**Notable:**

- **Alabama:** Moratorium on new licensing of cervid ranches
- **Arkansas:** Cooperates with the U.S. Fish and Wildlife Service (USFWS) and state Game and Fish Commission to monitor and control CWD
- **Colorado:** Requires mandatory CWD testing of hunter-killed elk, deer, and moose
- **Delaware:** Requires mandatory CWD testing of all hunter-killed deer
- **Florida:** Requires mandatory CWD testing of hunter-killed deer, elk, and moose
- **Georgia:** Requires mandatory CWD testing of all hunter-killed deer
- **Indiana:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **Iowa:** Requires mandatory CWD testing of all hunter-killed deer
- **Kansas:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **Kentucky:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **Louisiana:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **Maine:** Requires mandatory CWD testing of all hunter-killed elk
- **Maryland:** Requires mandatory CWD testing of all hunter-killed deer
- **Michigan:** Requires mandatory CWD testing of all hunter-killed deer
- **Minnesota:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **Missouri:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **Montana:** Requires mandatory CWD testing of all hunter-killed elk
- **Nebraska:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **New Hampshire:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **New Jersey:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **New Mexico:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **New York:** Requires mandatory CWD testing of all hunter-killed deer
- **North Carolina:** Requires mandatory CWD testing of all hunter-killed elk
- **North Dakota:** Requires mandatory CWD testing of all hunter-killed elk
- **Ohio:** Requires mandatory CWD testing of all hunter-killed deer
- **Oklahoma:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **Oregon:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **Pennsylvania:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **Rhode Island:** Requires mandatory CWD testing of all hunter-killed deer
- **South Carolina:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **South Dakota:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **Tennessee:** Requires mandatory CWD testing of all hunter-killed elk
- **Texas:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **Utah:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **Vermont:** Requires mandatory CWD testing of all hunter-killed deer
- **Virginia:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **Washington:** Requires mandatory CWD testing of all hunter-killed elk
- **West Virginia:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **Wisconsin:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **Wyoming:** Ban on the movement of deer/elk harvested from within the CWD Management Zone
- **Alberta:** Ban on the feeding of supplemental foods to deer/elk/cervids
- **British Columbia:** Ban on the feeding of supplemental foods to deer/elk/cervids
- **Manitoba:** Ban on the feeding of supplemental foods to deer/elk/cervids
- **Newfoundland and Labrador:** Ban on the feeding of supplemental foods to deer/elk/cervids
- **Northwest Territories:** Ban on the feeding of supplemental foods to deer/elk/cervids
- **Saskatchewan:** Ban on the feeding of supplemental foods to deer/elk/cervids
- **Quebec:** Ban on the feeding of supplemental foods to deer/elk/cervids
- **Ontario:** Ban on the feeding of supplemental foods to deer/elk/cervids
- **New Brunswick:** Ban on the feeding of supplemental foods to deer/elk/cervids
- **Nova Scotia:** Ban on the feeding of supplemental foods to deer/elk/cervids
- **Yukon:** Ban on the feeding of supplemental foods to deer/elk/cervids

**Key Points:**

- CWD has been reported in CWD zone states and provinces of North America.
- CWD is a chronic, progressive, and fatal infectious disease of the central nervous system of cervids (elk, deer, and moose).
- The disease is caused by prions, which are misfolded proteins that cause a conformational change in the normal, folded prion protein.
- CWD is transmitted through direct contact with affected animals or their tissues, or through the ingestion of contaminated feed or water.
- The disease is currently incurable and there is no vaccine available for prevention.
- In the US, surveillance programs are in place to monitor the spread of CWD, and regulations are in place to prevent the movement of infected animals.
- In Canada, surveillance programs are also in place, and regulations are in place to prevent the movement of infected animals.
- There is no evidence of human-to-human transmission of CWD.
- CWD is a threat to wildlife populations and the hunting and tourism industries.
- CWD has economic impacts on wildlife management agencies and the hunting and tourism industries.

### CWD Response Plan

- **Cervidae Testing Program**
  - Positive CWD status in the herd.
  - Herd must be isolated at least 30 days before testing.
  - Test results must be negative.
- **Cervidae Quarantine Program**
  - Cervidae must be quarantined for at least 90 days before testing.
  - Test results must be negative.

### CWD Response Plan for Uno Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Two Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Three Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Four Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Five Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Six Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Seven Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Eight Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Nine Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Ten Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Eleven Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Twelve Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Thirteen Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Fourteen Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Fifteen Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Sixteen Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Seventeen Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Eighteen Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Nineteen Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

### CWD Response Plan for Twenty Cervidae

- **Cervidae Testing Program**
  - Negative CWD status in the herd.
  - Cervidae must be tested every 30 days.

In New Mexico, Department of Game and Fish, Captive cervids in New Mexico are not allowed to be baited.
### Chronic Wasting Disease and Cervidae Regulations in North America

#### Department of Environmental Conservation (DEC) of the State of New York

Prohibits all annual deer licenses to individuals from the 36 contiguous states. In addition, the DEC has prohibited the feeding of wild deer in the New York City Metropolitan Area (DMAs). The DEC has also prohibited all wild deer in DMAs from entering the DEC's CWD surveillance program in New York State. The DEC has also prohibited the feeding of wild deer within 20 miles of a site where CWD has been diagnosed.

#### Department of Agriculture and Consumer Services (NCDA&CS)

Regulates the import of cervidae and facilities. Contact: Ron Grove, dmgrove@ncagr.gov, (701) 202-0775; State Board of Animal Health; Contact Dr. Beth Grove, beth.grove@ncagr.gov, or Dr. Michael Neault, Mike.Neault@ncagr.gov. NCDHHS requires a farmed cervid license for North Carolina and requires a farmed cervid license for North Dakota. The NYSDEC has prohibited the feeding of wild deer within 10 miles of a site where CWD has been diagnosed.

#### Department of Agriculture and Consumer Services (NCDA&CS)

Regulates the import of cervidae and facilities. Contact: Ron Grove, dmgrove@ncagr.gov, (701) 202-0775; State Board of Animal Health; Contact Dr. Beth Grove, beth.grove@ncagr.gov, or Dr. Michael Neault, Mike.Neault@ncagr.gov. NCDHHS requires a farmed cervid license for North Carolina and requires a farmed cervid license for North Dakota. The NYSDEC has prohibited the feeding of wild deer within 10 miles of a site where CWD has been diagnosed.
